The National Science Foundation and NASA have provided major funding to the Space Science Institute to develop a 3,500 sq. ft. traveling exhibition about the giant planets.

The exhibit includes:
Family of the Sun
Meet the Giants
New Frontiers

Visitors explore the extraordinary giant planets orbiting our Sun and learn what they tell us about the formation of solar systems, our planet, and the conditions necessary for life.

Insights El Paso Science Museum
is proud to present:

GIANT
WORLDS
VOYAGE TO THE OUTER SOLAR SYSTEM

OCTOBER - DECEMBER 2009

How did our Solar System form?
What are giant planets made of?
How big is Jupiter compared to Earth?

Giant Worlds: A Voyage to the Outer Solar System, answers these and many more questions in an interactive experience that's out of this world.

An exhibit that will bring these new discoveries to the public and the classroom.
